

Portfolio Presentation

Paulo Amaral – Consultant
Using technology to make a difference

Our Proposal

Our values and goals
boost our and your
company or
organization

We believe in transforming businesses in the short and long term and our goal is to build products and solutions that make a difference from the very first delivery.

We are changeable - we easily adapt to new challenges and needs.

We are transformers - we face everyday life with creativity and agility.

We are potentializers - we understand needs and develop together.

It is through the individual that society transforms. It is he who has needs and, in doing so, creates opportunities and generation of knowledge, transformation and innovation.

What we do

We develop end-to-end handmade products and solutions

Just like in a workshop, we use our skills to develop products, mastering complete processes, much like an artisan.

- + Software Development
- + Technology Outsourcing Services
- + Machine Learning and Data Science
- + Information Technology Consulting
- + Capacity Building
- + Mentoring
- + Projects
- + Advice

Our Culture

- + Culture is more than what we believe.
It's what we do, that we live.
It's our way of being.
- + We adopt the UBUNTU philosophy.
- + We believe in a sustainable society
by the pillars of respect and solidarity.

Our Values

- + Excellence;
- + Innovation;
- + Do more with less;
- + Transparency;
- + Proactivity;
- + More than anything, art;
- + Team Attitude;
- + Honesty;
- + Integrity;
- + Deliver WOW to the customer.
- + Our values convey our essence.
And we believe that we become what we do.

The screenshot shows a web browser window displaying the login page for the SIGI (Sistema Informático de Gestão de Inquéritos) system. The URL in the address bar is https://10.50.135.99/OPGCMS/login.action. The page title is "SIGI Sistema Informático de Gestão de Inquéritos". A language selection bar at the top right offers "Portuguese | English | Tetum". The main content area is titled "Login para o sistema" and includes a note: "** Base de dados de VGL **". It features two input fields labeled "Utilizador:" and "Password:", both marked with an asterisk to indicate they are required. Below these fields is a "Login" button. To the left of the input fields, there is explanatory text: "Se tem uma conta válida neste sistema introduza o utilizador e a password e escolha a língua para continuar." and "Se esqueceu a sua password ou gostaria de saber como obter uma conta contacte o administrador do sistema para mais informações.". At the bottom right of the page, a note in red text reads: "** Por favor note que todos os dados devem ser inseridos no sistema em português **". The footer of the page contains copyright information: "© 2015 Ministério Público, Versão 0.1, 2010-11-09-1045" and "Ministério Público Timor-Leste".

+ Consultancy for diagnosis and remodeling (Sizing) of the infrastructure of Servers and databases to support upgrades and new functionalities in the **IIMS Case System**.

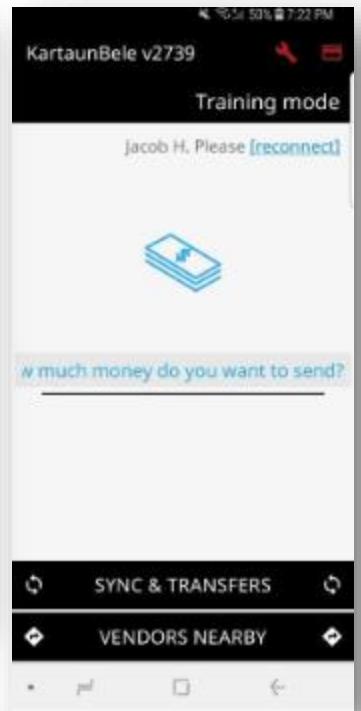

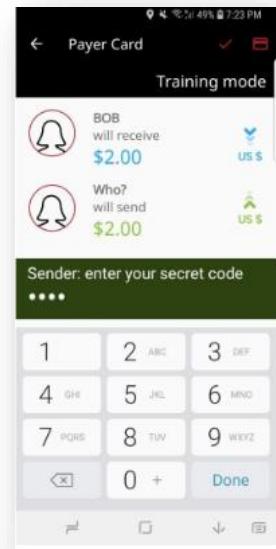

World Vision Kartaun Bele

Partnership with the **World Vision** Timor-Leste

To develop inclusive digital payment platform for access to financial services.

+ Pilot project for 3000 beneficiaries in Ermera District of Timor-Leste

Machine Learning App (Brazil)

Worked **remotely** on this project, providing a complete structure to implement :

- + Cloud and application development in GCP.
- + Pilot project for **NCM** classifier (Mercosul common standard).
- + Fully implemented in cloud

- Tax group classifier
- NCM classifier
- Classifier for query solutions
- BigQuery for storage
- Data Pipeline and ETL

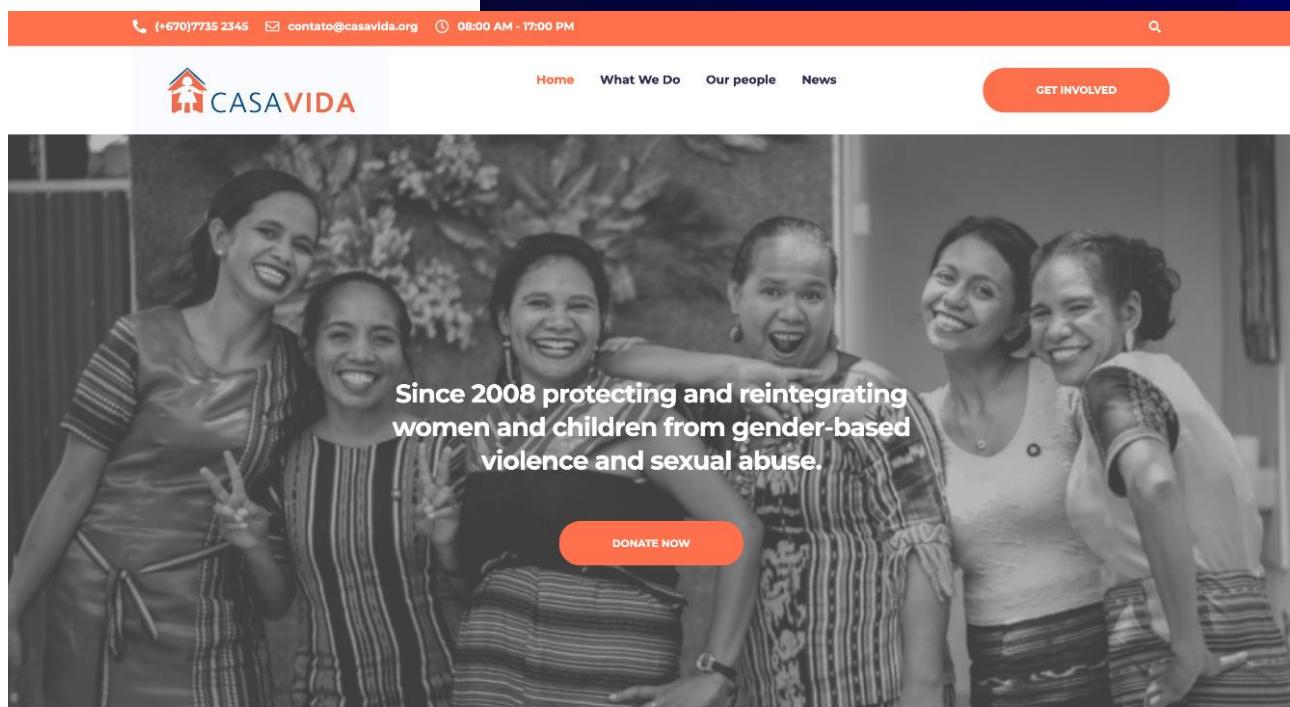

The image shows two screenshots illustrating the machine learning application. The top screenshot is a 'Google BigQuery' interface. On the left, there's a sidebar titled 'PROJETO BECOMEX IA' with a tree view of datasets. One dataset, 'AI', is highlighted with a red arrow. The main area shows a 'New Query' window with the following SQL code:

```
1 #standardSQL
2 SELECT *
3 FROM `bom.BCM.AI` t
4 WHERE
5 REGEXP_CONTAINS(TO_JSON_STRING(t), r'caixa_marcha')
```

The bottom screenshot is a window titled 'Gestão Tarifária'. It has a green header bar with the 'BECOMEX' logo. The main interface includes fields for 'Número de Previsões' (set to 3), 'Aplicativos' (checkboxes for 'App1: Grupo Tarifário', 'App2: NCMs', and 'App3: Solução de Consulta' which is checked and set to 'MODELO_OR_09-05_GABARITO+RECEITA'), and a status message 'APP3: Requisição: 172 - Quantidade de itens: 69'. At the bottom are buttons for 'Processar', 'Gerar Relatório', and 'Fechar'.

Casa Vida

- + Develop of the New website.
- + Integrated with e-commerce and online donation platforms for fundraising.
- + Volunteer responsible for ICT.

Court of Appeals

+ Develop of the New
Portal and systems.

The screenshot shows the homepage of the Tribunal de Recurso website. At the top, there is a navigation bar with links for 'Tribunal de Recurso', 'Legislação', 'Tribunais Distritais', 'Câmara de Contas', 'Anúncios', 'Sistemas', and a search icon. To the right of the navigation bar is a search input field labeled 'Buscar Acórdãos'. The main content area features a dark blue background with white text. In the center, it says 'BEM VINDO AO PORTAL DO TRIBUNAL DE RECURSO'. Below this, a paragraph of text reads: 'Neste sitio, você poderá encontrar informações sobre o Tribunal de recurso, Tribunais distritais, pesquisar acórdãos e publicações da câmara de contas.' At the bottom left of this section is a button labeled 'Saiba mais...'. On the right side of the main content area, there is a circular emblem of the Republic of Timor-Leste with the text 'REPÚBLICA DEMOCRÁTICA DE TIMOR-LESTE' around the top and 'RDTL' at the bottom. The bottom half of the page has a solid dark blue background.

documentation

The screenshot shows a web page titled "Catálogo de Dados Tecnologia da informação". The page features a red shield logo with a scale and a star. The main content area includes a section titled "INTRODUÇÃO" with text about ITIL and CMDB. The left sidebar has a navigation menu with "Introdução" selected, and links to "Servidores", "Rede", and "Políticas de TI". The top right corner shows "GitLab TR" and a search bar.

Introdução

Servidores >
Rede >
Políticas de TI >

Catálogo de Dados
Tecnologia da informação

INTRODUÇÃO

Segundo o framework ITIL (que é uma biblioteca de melhores práticas para gerenciar serviços de TIC e melhorar os níveis de serviço e de suporte), uma das principais metas da ITIL é garantir que os serviços de TIC se alinhem aos objetivos do Tribunal, à medida que eles mudam.

Uma das partes mais essenciais da ITIL é o banco de dados de gerenciamento de configuração (CMDB), o qual fornece a autoridade central para todos os componentes, incluindo serviços, software, componentes de TIC, documentos, usuários e hardware que devem ser gerenciados para entregar um serviço. O CMDB controla a localização e as mudanças de todos esses ativos e processos, juntamente com seus atributos e relacionamentos entre si.

Court Of Appeals/CAC

Declaration of assets and interests for the public officials.

The project(software architecture) includes:

- + BPMN map of process
- + UML class diagram
- + Database design
- + Technical and functional documentation/specification

The screenshot shows the first step of a declaration form. It has a header "DECLARAÇÃO DE RENDIMENTOS, BENS E INTERESSES". The main area contains fields for "Tipo do Documento", "Nº Documento *", and "Cargo/Função". Below these is a "Salvar e Continuar >" button. A sidebar on the right lists several asset categories with checkboxes: Rendimentos, Património Imobiliário, Veículos, Barcos e Aeronaves, Objetos Preciosos com valor superior a USD 1500, Investimentos em Ações, Títulos de Dívida Pública e outros Instrumentos Financeiros - Em Nome Prório, and Done.

The screenshot shows a login page titled "Declaração de bens, rendimentos, e interesses". It includes a message for new users: "Olá se você é novo usuário, por favor registre-se. Caso já tenha feito o registro, por favor acesse com o seu e-mail e senha". There are fields for "Digite seu Email" and "Digite sua Senha", along with "NOVO REGISTRO" and "ENTRAR" buttons.

IDA – PNDS – Data Analysis

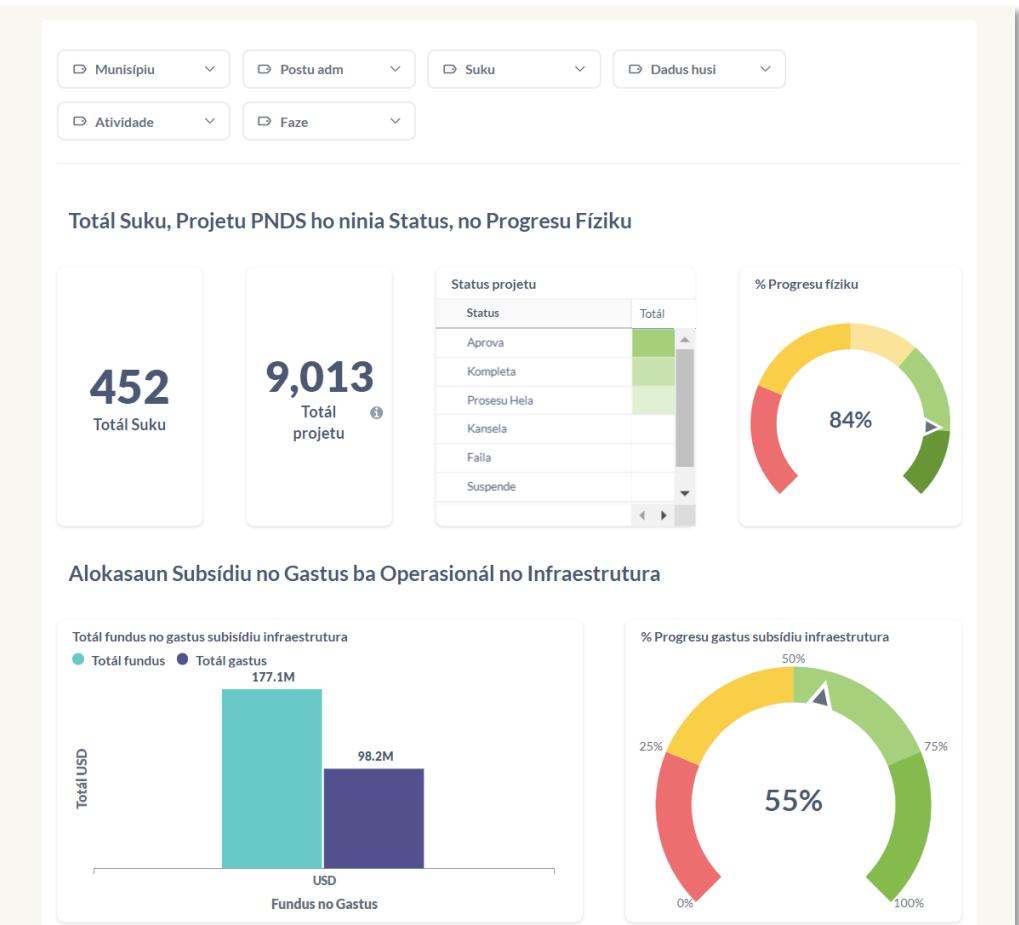

Platform to assist the Ministry of State and Administration in the implementation of the Programa Nacional de Desenvolvimento do Suku (PNDS) in Timor-Leste

The screenshot shows the login interface for the IDA platform. It features a logo at the top left, a dropdown menu for selecting a municipality ('Tetun'), and two input fields for 'Naran uzúáriu' (username) and 'Seña' (password). A teal 'Login →' button is centered below the password field. Below the form, there are links for 'Haluhu seña' and 'Presiza ajuda?'. A large text block explains the platform's purpose: 'Ida hanesan plataforma web, né ebé iha faze inisial dezenvolvimentu, hodi ajuda Ministériu Administrasaun no Estatal iha implementasaus Programa Nasional Dezenvolvimentu Suku (PNDS) iha Timor-Leste. Né sei ajuda Governu Timor-Leste atu akompaňa progresu PNDS, no iha tempu hanesan oferese instrumentu ho padraun aas ba akontabilidáde, transparénsia no planementu estratéjiku.' At the bottom, there are two small circular logos and a footer note about international support.

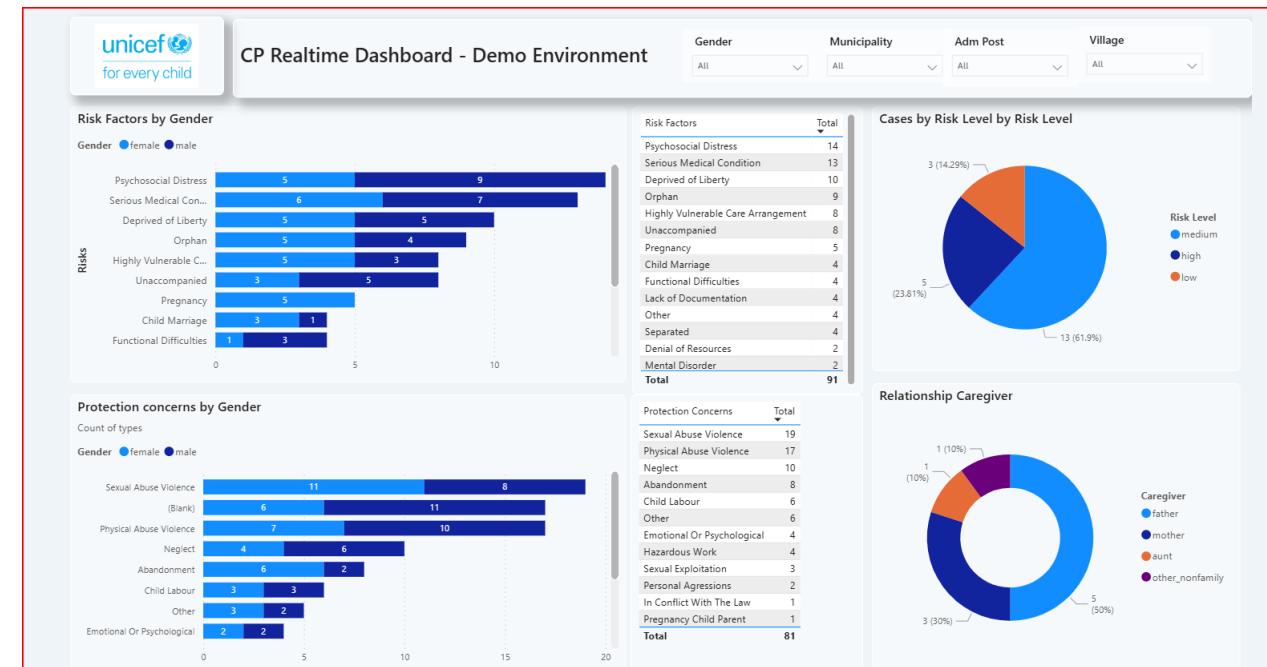

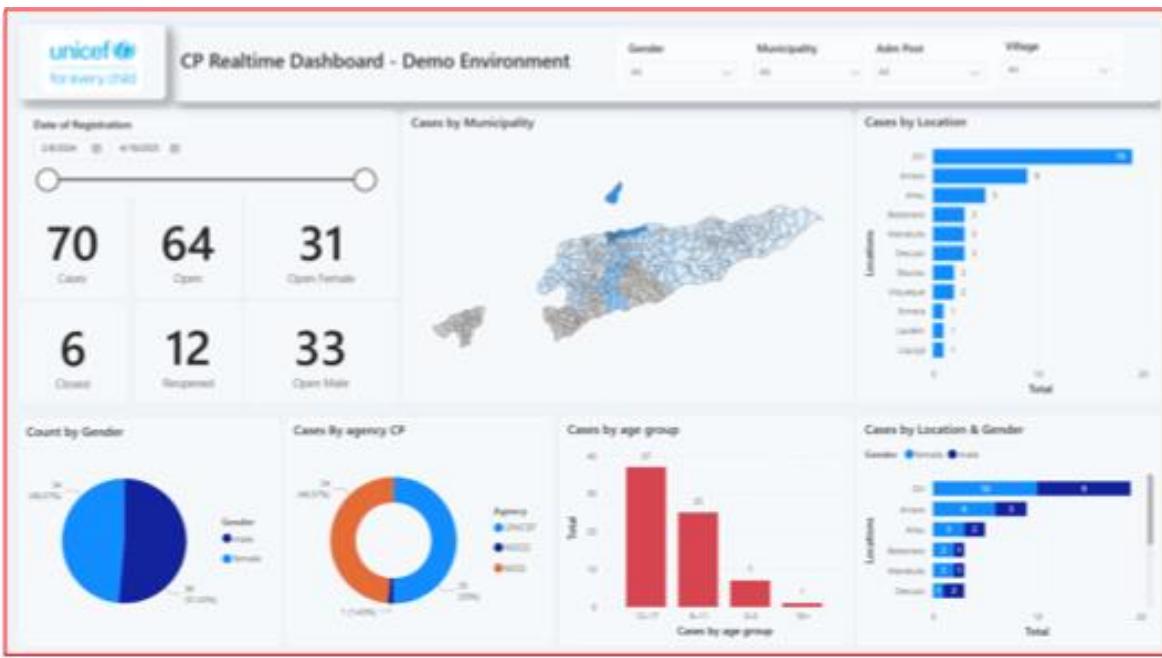

The screenshot shows the main dashboard of the IDA platform. On the left is a dark sidebar with the 'ida' logo, the name 'Bondia, Paulo Amaral', and a dropdown menu for 'Dashboard'. Other menu items include 'Infografíku', 'Sosial', 'Finansa', 'Tékniku', 'M & E', 'Jestaun Suku', 'Jestaun Projetu', 'Jestaun Keixa', 'Formuláriu >', 'Admin >', and 'Sai'. Below the sidebar is a dropdown for 'Tetun'. The main area displays several cards with data: 'Totál Suku' (452), 'Totál projeto' (9,013), a status chart for projects (Status projetu), and a progress gauge (84%).

Digital Maturity Assessment for the Justice Sector

+ Develop an DMA framework using DELLOITE tool as a model

Digital Maturity Assessment

Instructions Assessment Form Results Visualization Saved Assessments Logout

Assessment Instructions

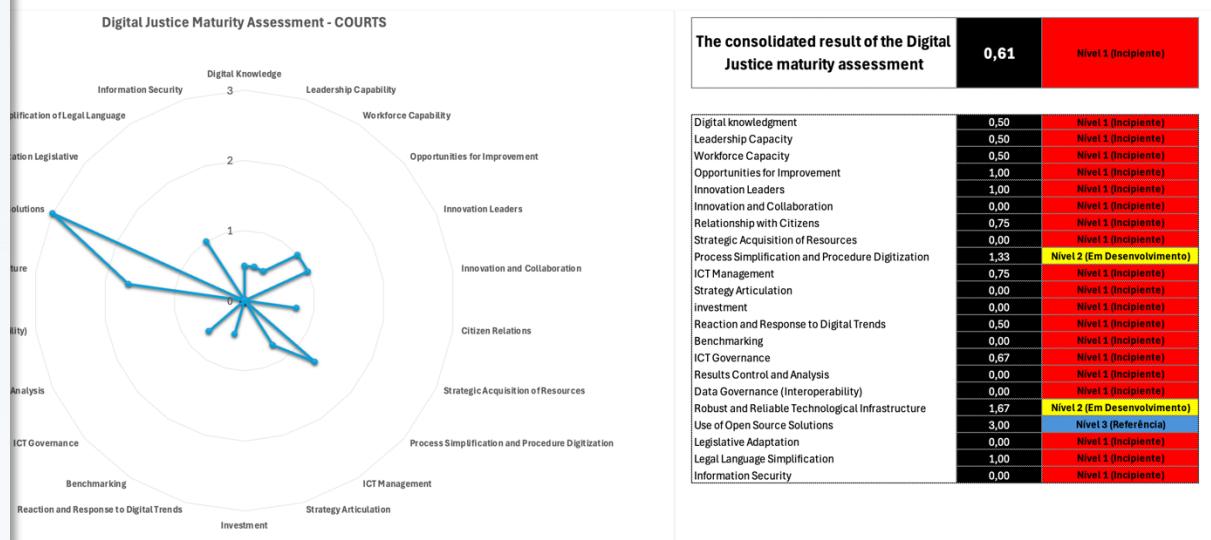

This tool allows you to assess the digital maturity level in organizations, considering three main dimensions:

- People**: Development of competencies and skills of professionals in the organization.
- Processes**: Efficiency of organizational operations.
- Preparation**: Organization's capacity to adjust and prepare for changes brought by digital transformation.

Maturity Levels

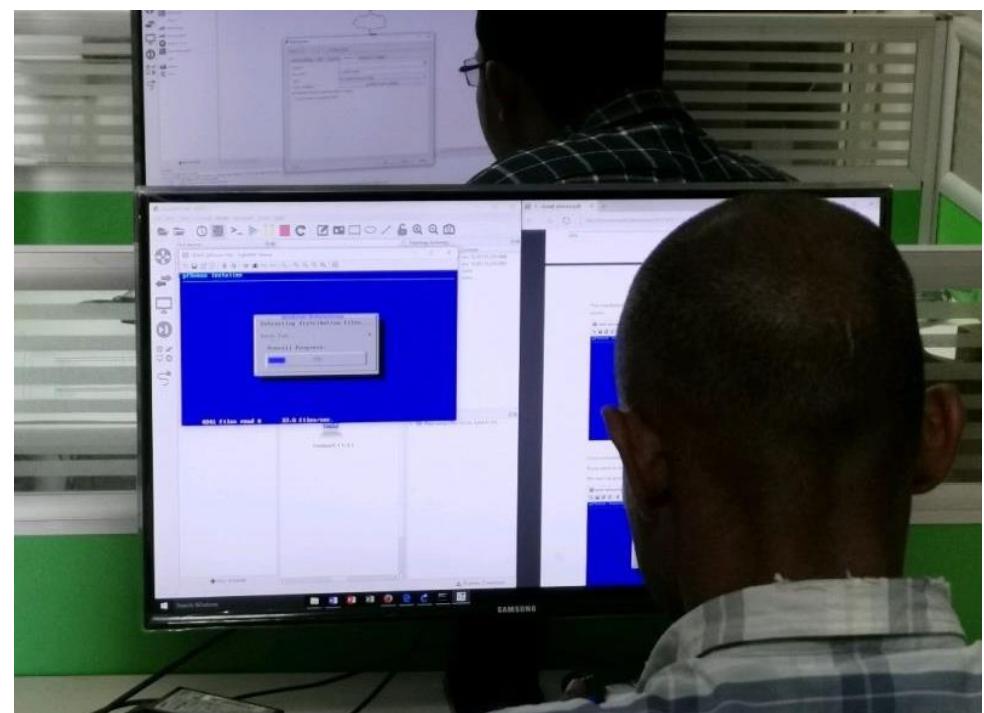

- 1 Level 1 – Not implemented: The capability does not exist yet or is at a very early stage.
- 2 Level 2 – Initial implementation phase: The capability is being developed but still needs much work.
- 3 Level 3 – Partially implemented: The capability exists and works, but there is still room for improvement.
- 4 Level 4 – Well implemented: The capability is fully implemented and integrated into the system.

Start Assessment

Capacity Building

ICT training for Timorese engineers and GovTL officials.

Infrastructure

+ ICT infra to “Balkaun uniku” Office.

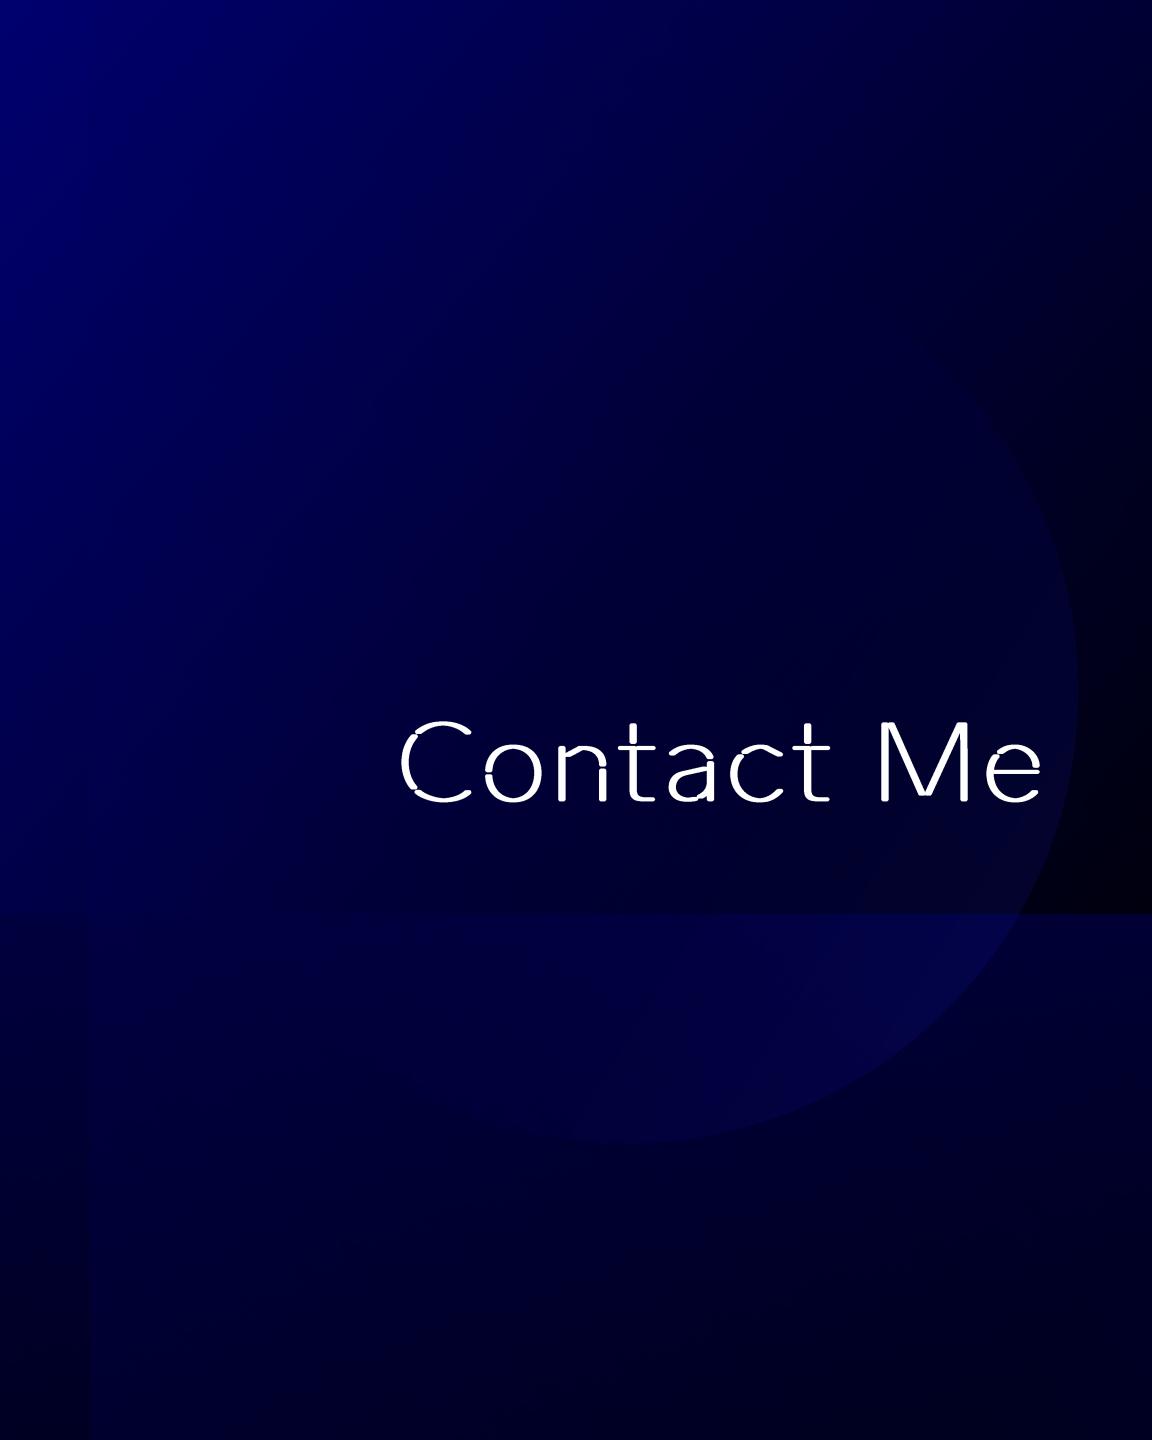

- Successfully implemented a complete hardware and software infrastructure for a new government “One-Stop-Shop” office.
- Led the installation and configuration of computers, printers, network switches, routers, and business-critical systems, ensuring seamless integration and functionality.
- Conducted final acceptance testing to guarantee system reliability and performance.
Delivered full-cycle ICT support, providing expertise from the construction phase through to project handover and operational launch.

Technical Support

- + Technical support services in information technology with a technician assigned to the European Union Delegation in Timor-Leste through an **OUTSOURCING** contract.
- + 2 years of contract
